Carrying Capacity
Get 1 or 2 rings of strength and equip them. Pickup as much items as it will allow you. Now unequip them and switch them to any other ring you so desire. Infinite Experience (without using Cheat Menu)
Get to a save point right before a boss that gives a lot of experience. Example: Beholder, Drow Elf Sorceress, Dragon, Onyx Golem. Save the game. Defeat the boss, then go back and save the game under a new file. Load the original file (before you fought the boss). Import the character from the new file (after you fought the boss). Go fight the boss again for more experience.

Infinite Gold or Duplicate Items
Have two players going at the same time. Being in town is a must. Then have one character drop all their stuff. Import the character
that just dropped their stuff and they will have all the things that they just dropped but, it’s also on the ground. Pick up the stuff sell the duplicates and save. You now have more money. Buy expensive items with your extra gold and repeat this cheat again.

Get Level 20 Character and 75,000 gold
When in play mode, press L1, R2, Triangle, Left D-Pad, R3 and start simultaneously to instantly make your character 20th level, with 75000 gold, 1000 Health and 1000 Mana, and a minimum of 1 in every feat, including OTHER character specific feats. The downside is that your character does not gain any further experience points while playing, and is stuck at 20th level, with low level feats. The normal character max is 40th level.

**Convert Weapons into Health**

**Decipher Minion**
To understand what Minion’s numbered codes mean on the load screens (when playing as him), match the number with its corresponding letter. A=1, B=2, and Z=26.

**Different Weapons Display**
Press and hold Select, then press Right during gameplay to change the weapons selection display.

**Downtown Jackpot**
On one side of the river in the downtown level is the R&D Chemicals Plant. On the left side of the main building are three giant balls, like the ones in the highway loop level. Shoot the one closest to the sign with a gas can, and it rolls into a building, knocking it down and revealing three healths (which are supplied throughout the level at this location). Shoot the ball on the far left and it rolls into the building directly behind the previous one, giving you six power missiles.

**Elevator in Downtown**
Find this elevator to pick up power-ups and escape the city hustle and bustle. Find the Atom Bank and face it. To its left is a building with glass doors. Shoot them and they’ll blow to pieces. Use the elevator to drive up to the higher reaches of the building. There’s one health power-up up there, and it’s a great view!

**Infinite Ammo**
To have unlimited ammunition for your ride, press and hold the shoulder buttons (R1, R2, L1, L2) then press Up, X, Left, Circle.

One Hit Kills
During gameplay, press and hold L1+R1+L2+R2 and quickly press X(2) and Up during gameplay. At the top of the screen, a message confirms you’ve done it right.

Open Elevators Level
Go the Highway Loop Level and kill off six or seven of the combatants. Drive to the raised, broken bridge (with the two health pick-ups and another pick-up in between), and find a power plant, directly off the road. There are two or three giant steel balls there. Shoot the one closest to the bridge with a Gas Can (the projectiles don’t work well for this), and it breaks off and rolls. Stay clear of its path, or you’ll be squashed. Follow the ball. When it crashes through a wall, follow into the newly opened area and find the Black Cube inside. Health and weapon pick-ups are also inside.

Open Freeway Level
To open the Freeway for multiplayer action, get 10 Kills in Survival Mode in the Snowy Roads arena.

Open Mini-Suburbs Level
To open the Mini-Suburbs for multiplayer action, get 10 Kills in Survival Mode in the Drive-In arena.

Unlock Axel
After beating the first level, choose the Freeway level, not Suburbs (and not the Highway Loop level). Drive to the middle of the level, where an entrance to the construction lot and a Repair Station are located. Of the two cranes located here, focus on the left one. Center your vehicle in the middle of the construction site and use the middle ridge to aim any kind of missile toward the orange control box near the center of the crane. Locate your vehicle halfway up the ledge for the perfect shot. Doing this takes time, and enemies are sure to throw a barrage of projectiles at you, so beat down several of them before trying this.

Unlock God Mode
During gameplay, press and hold L1+R1+L2+R2 and rapidly press Up, X, Left, Circle while playing. There is a message at the top of the screen that reads “God Mode On,” confirming you did it right.

Unlock Manslaughter
Manslaughter, the giant dump-truck driven by Black, is located in the Prison Passage level. Down on the docks to the starboard side of the landed ship is a stack of crates holding a health power-up. Shoot the crates to blast open a ramp to the health, then shoot at the ship’s hull above where the crates are stacked against it. A panel opens, and you can
drive into a room inside the ship where Manslaughter is located. As per usual, destroy the control panel to unlock the new car.

Unlock Minion
To unlock the bad-ass truck Minion, beat the Story Mode with every character, including those you unlock in the game. In other words, beat the game with all starting characters plus Manslaughter, Warthog, Yellow Jacket, and Axel.

Unlock Warhawk’s Level
To open Warhawk’s multiplayer level in the first level (Zorko Bros. Scrap and Salvage, a.k.a. the Junkyard), focus your efforts on the vertical crusher. There are two ways to get up on top of the vertical crusher—this first way is easiest. Drive up the ramp to the broken freeway and drive halfway along it. Aim your car toward the Bob’s Big Boy, and shoot it with a Power or a Fire, to avoid hitting any other cars. When that blows up, it creates a ramp to the vertical crusher. Drive down to the newly created green ramp and, when the crusher is down, drive onto it. Drive slowly onto it so you don’t go over it. When it ascends, shoot the building on top of the deck, then drive onto the deck. On the left side is a Black Cube, which opens Warhawk’s multiplayer level.

Unlock Warthog
In the Suburbia level, head to the carnival area. At the gate, take a left and head toward the smoke over the ridge. Aim your vehicle for that, speeding up and ramping off the angled dirt ridge here. You land on a building below with a large hole in its roof. Go inside and look for a control panel in the corner. Shoot it to unlock Warthog.

Unlock Yellow Jacket
In the first level, Zorko Brothers Scrap Salvage, there is an airplane circling around again and again. Use a homing missile and shoot it down. Lead the missile to the plane. Go to the wall near the giant magnetic slammer and shoot from there. After that’s done, drive to the lower section of the level. The plane has crashed and you can drive in it. Go to the end, find the console and shoot it with machine gun fire. After four seconds, you can see Yellow Jacket’s car lower down.
